GRAY WHALE WATCHING

Activity Book

NATIONAL PARK SERVICE

Instructions:

- Join us at Whale Watch and Kelp Forest Overlook!
- Borrow some binoculars from a Park Staff or Volunteer
- Search the ocean for signs of a whale! This may include: tail flukes OR spouts OR movement in and out of the water.
- Hint: Follow the path of any whale watching boats you see!
- If you spot a whale, share the whale!

Feel free to ask and questions to Park Staff and Volunteers we are happy to help!

FINAL REPORT

Did you find any Gray Whales? How many did you see?

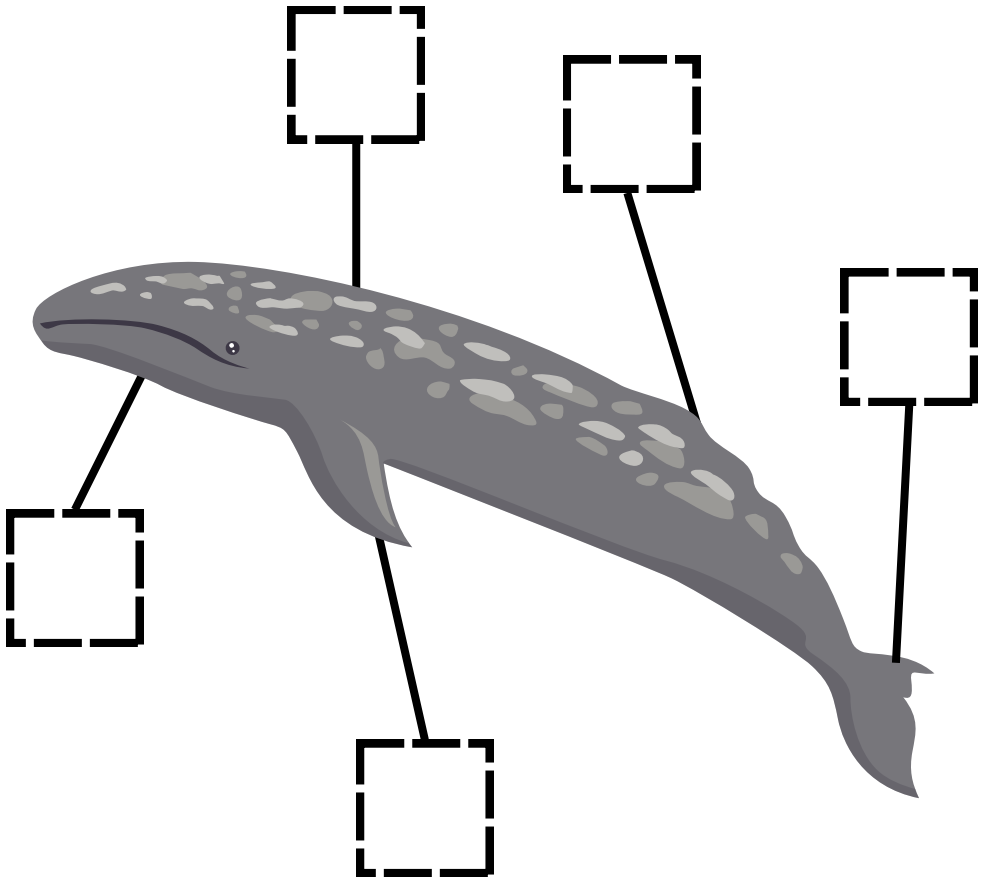

How many other animals did you see? What kinds were there?

How did you look for the animals?

What was your favorite part of whale watching?

Gray Whale Anatomy

Match the correct names to the parts
